

PAKKI NITHISH

FULL-STACK SOFTWARE ENGINEER | AI-POWERED APPLICATIONS

✉ nithishpakki18@gmail.com ☎ 9392707154 📍 Hyderabad. Telanagana, India 🔗 LinkedIn 🔄 GitHub 📁 Portfolio

SUMMARY

Electronics and Communication Engineering student with strong foundations in DSA, OOPs, and Software Development. Experienced in building full-stack applications using React.js, Next.js, Node.js, FastAPI, and PostgreSQL, with hands-on experience integrating LLMs, Generative AI, and Azure AI Foundry models into production-oriented applications. Focused on building scalable, AI-powered software systems and solving complex engineering problems.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern, *iSpatial Techno Solutions* 🌐 05/2026 – Present | Hyderabad

- Designed and deployed a full-stack recruitment platform using Next.js and FastAPI to support end-to-end hiring workflows and recruiter operations.
- Built an AI Copilot for semantic resume screening using LLMs and OpenSearch, enabling semantic candidate discovery beyond traditional keyword-based search.
- Integrated Azure AI Foundry models to implement Generative AI capabilities including AI-assisted candidate matching and recruitment workflow automation.
- Developed real-time hiring dashboards that process PostgreSQL data and generate AI-assisted insights for monitoring recruitment pipelines.
- Implemented Role-Based Access Control (RBAC) with JWT authentication and multi-factor authentication (MFA) to secure recruitment workflows and candidate data.
- Engineered asynchronous background workflows with FastAPI to automate email notifications across the hiring pipeline.

TECHNICAL SKILLS

- Programming Languages** — C, Java, Python, JavaScript
- Core Computer Science** — Data Structures & Algorithms, Object-Oriented Programming
- AI & Generative AI** — LLMs, Generative AI, Semantic Search, AI Model Integration
- Microsoft Azure** — Azure AI Foundry, Azure AI Foundry Models
- Backend Development** — FastAPI, Node.js, Express.js, REST APIs
- Frontend Development** — React.js, Next.js, HTML5, CSS3
- Databases** — PostgreSQL, MongoDB
- Tools** — Git, GitHub

PROJECTS

Gen AI Job Preparation Web Application 🌐, *Tech Stack: MERN Stack*

- Developed a full-stack web application using the MERN stack, helping users prepare for job interviews through Generative AI features.
- Integrated AI-based tools for resume building, interview question generation, and personalized feedback.
- Designed responsive, reusable UI components, enhancing user experience across devices.
- Built and managed backend services using Node.js, Express.js, and MongoDB, ensuring reliable data handling and API performance.

Netflix – Clone 🌐, *Tech Stack: React, Firebase*

- Built a Netflix-clone web application using React for the front-end UI and Firebase for user authentication
- Integrated movie APIs to fetch and dynamically display real-time content
- Designed a responsive and interactive UI to deliver a seamless user experience
- Managed version control and collaborative development using Git and GitHub

Movie Recommendation Web App 🌐, *Tech Stack: HTML, CSS, JavaScript, REST APIs*

- Developed a dynamic movie recommendation web application using HTML, CSS, and JS, integrated with external REST APIs
- Implemented API integration to fetch and display real-time movie data
- Designed an interactive UI with dynamic content rendering using JavaScript
- Managed source code and collaboration using Git and GitHub

EDUCATION

B. Tech - Electronics and Communication Engineering, *K L University*
CGPA: 9.44 / 10

2023 – 2027 | Hyderabad, Telangana

Intermediate - MPC, *Sri Chaitanya Junior Kalasala*
Percentage: 84.1%

2021 – 2023 | Hyderabad, Telangana

ACHIEVEMENTS & CERTIFICATIONS

Solved 900+ coding problems across CodeChef, LeetCode, and Codeforces.

MongoDB Associate Developer, *MongoDB*

AWS Certified Cloud Practitioner, *AWS*
